Types of WordPress Hosting

Shared Hosting vs. Managed WordPress Hosting

Choosing the right web hosting is crucial when setting up a WordPress site.

Shared hosting is often an excellent entry-level, budget-friendly option for website owners with smaller or less traffic-heavy sites.

For demanding websites, managed WordPress hosting is better. It offers enhanced security, faster speeds, automatic updates and WordPress support.

Whether you are a WordPress developer or a site owner looking for a cost-effective solution, understanding the difference is helpful.

to Virtual Private Server (VPS) or cloud hosting boosts website speed and flexibility. It helps handle more traffic.
